
New Addition to Our Web Site - For Investors

As many of you know we have always made it a policy to meet with investment managers to discuss their philosophy, methodology, as well as hearing what they have to say about their approach to the current market conditions.

We Now have recordings of these conversations on our Web Site

We will do our best to keep these interviews current. We would really appreciate your feedback. Inasmuch as we have scheduled two or three of these interviews a week we would like to know:

1. Do you like the idea?
2. Do you have particular managers you would like us to schedule for an interview?
3. Are there particular subjects you would like to cover?
4. Of course, any other feedback you could give us would be greatly appreciated.

Often times the same manager will have totally separate individuals (portfolio managers, analysts) for each different style for which they offer managed accounts. These will be carefully indicated. Please know that the approach, performance, etc. for each style will be totally different even within the same management organization.

Please access these recordings (each on a separate page on our website) as follows:

1. Go to www.arandagroup.com
2. Click on Investment Manager Meetings on the left.
3. Click on each specific interview to which you wish to listen, listed on the right.

The meetings we have had over the past two weeks and on our Website are:

1. "Invesco- REIT" (November 24th, 2008)
2. "Federated Investors" (November 20th 2008)
3. "Alliance Bernstein Large Cap Growth" (November 20th 2008)
4. "Atlanta Capital Management- Small & Mid-Cap Blend." (December 4th 2008)

We have one more scheduled today (Friday) and two next week so please check the Web Site often. We sincerely hope you find these interviews helpful.

How Fast Is Your Internet Connection?

No, Not Quite This Fast

There is an easy way to find out however how fast your internet connection is. Just point your browser (Explorer or otherwise) to:

www.speakeasy.net/speedtest/

Then just pick a city that is nearest to you and you will see your download speed and your upload speed. You will find, especially on a cable modem, that your speed is different at different times of day, since you are sharing the "pipeline" with other users. We find it quite helpful when we are using it in a hotel, either wired or wireless to get an idea how good a connection we have.

Please Help Us

Some clients had asked us to send their Friday Envelope information to them in an Adobe PDF format file. Although it takes a few minutes to scan the documents, it saves us money.

With postage rates going up over time we could reduce our postage expense if many of you could accept the information in this manner. Of course we understand if you don't have a computer with an internet hookup or just prefer to receive the information on paper, we will continue to send your Friday Envelope in the current format, by snail mail.

There is an advantage for you as well of course. You would receive the information from us, usually on Friday afternoon, in time to spending an exciting weekend reading the contents.

If possible, help us save some money and save some trees as well. Just give us a call. Thanks.

Making a Strong Man Stronger

I want to thank so many of you for your support during the recent period of time when I was a bit under the weather. I'm back to normal in every way except I lost a little muscle mass.

Although I am in the office every day, I'm a bit late on Tuesdays & Thursdays. Here I am with my Physical Trainer, Colleen Tomko. She's tough on me on those mornings, but soon

I'll be back to my old powerful self. Susan & Tod, thanks for the recommendation.
